

SAFETY MANAGEMENT PLAN

Note: This template is a guidance for trial organizations to create their own Safety Management Plan document. Trial organizations are recommended to extend the key safety risk listed below.

Cybersecurity and Over-the-air:

No.	Potential failure	Potential failure effects	Potential causes	Current control of failure	Further actions to control failure
1.					
2.					
3.					
...					

Road Users:

No.	Potential failure	Potential failure effects	Potential causes	Current control of failure	Further actions to control failure
1.					
2.					
3.					
...					

Road Infrastructure:

No.	Potential failure	Potential failure effects	Potential causes	Current control of failure	Further actions to control failure
1.					
2.					
3.					
....					

AV and Vehicle System:

No.	Potential failure	Potential failure effects	Potential causes	Current control of failure	Further actions to control failure
1.					
2.					
3.					
...					

Fallback and Failsafe:

No.	Potential failure	Potential failure effects	Potential causes	Current control of failure	Further actions to control failure
1.					
2.					
3.					
...					

Safety Officer / Operator:

No.	Potential failure	Potential failure effects	Potential causes	Current control of failure	Further actions to control failure
1.					
2.					
3.					
...					

AV Pre-trial:

No.	Potential failure	Potential failure effects	Potential causes	Current control of failure	Further actions to control failure
1.					
2.					
3.					
...					

Vehicle Identifier:

No.	Potential failure	Potential failure effects	Potential causes	Current control of failure	Further actions to control failure
1.					
2.					
3.					
...
